“Appeal” is a written request by an Enrollee or his or her representative to review an Adverse Benefit Determination.

“Benefit” means a service that is covered under this Plan.

“Child” means a natural child; stepchild; adopted child; child for whom the Subscriber has assumed a legal obligation for total or partial support of the child in anticipation of adoption of the child; or child for whom the Subscriber has court-appointed legal guardianship. Child also includes a child for whom the Subscriber is required to provide dental coverage, pursuant to a Qualified Medical Child Support Order (QMCSO) as defined in the Employee Retirement Income Security Act of 1974, as amended, or a foster child.

“Dentally Necessary” is a term for describing a dental service that is required to prevent, diagnose, or treat a dental condition and which is:

- Consistent with the symptoms or treatment of a dental condition;
- Appropriate with regard to standards of good dental practice and generally recognized by the relevant scientific community, evidence-based medicine, and professional standards of care as effective;
- Not solely for the convenience of the Enrollee or a provider of the service; and

“Dentist” means a person licensed to practice dentistry in the state where treatment is provided.

“Denturist” means a person licensed to engage in the practice of denture technology pursuant to the laws of the state where treatment is rendered.

“Dependent” means a legal spouse, state registered domestic partner, or Child, who is eligible and enrolled for coverage under this Plan.

“Enrollee” means any Subscriber or Dependent.

“Experimental or Investigational” means a service that is determined to be experimental or investigational. In determining whether services are Experimental or Investigational, the Plan will consider the following:

- Whether the services are in general use in the dental community in the state of Washington;
- Whether the services are under continued scientific testing and research;
- Whether the services show a demonstrable benefit for a particular illness, disease, or condition; and
- Whether the services are proven safe and effective.

“General Office Visit Copayment” means the Copayment an Enrollee must pay for each visit for emergency, general, or orthodontic treatment.

“Subscriber” means an employee of the Plan Sponsor, who is eligible and enrolled for coverage under this Plan.

Eligibility and Enrollment

Employee Eligibility

To be eligible to enroll under this Plan, an active employee must work the minimum number of hours required by the Plan Sponsor.

Family Member Eligibility

The following family members are eligible for coverage as a Dependent under this Plan.

- The legal spouse of the employee.
- The state registered domestic partner of the employee.
- The Child of the Subscriber, Subscriber's legal spouse, or Subscriber's state registered domestic partner, to the age of 26.
- The Child of the Subscriber, Subscriber's legal spouse, or Subscriber's state registered domestic partner, age 26 or older, if the Child is and continues to be incapable of self-sustaining employment because of a developmental disability or physical disability that began before the Child reached age 26 and is and continues to be chiefly dependent on the Subscriber, Subscriber's legal spouse, or Subscriber's state registered domestic partner for support and maintenance. Documentation of the requirements described herein must be provided to the Plan Sponsor within 31 days after the Child's attainment of the limiting age.

Eligibility Waiting Period and Initial Enrollment

A prospective Subscriber becomes eligible for coverage on the first day of the month following or coinciding with the date of hire.

The waiting period is waived for employees transitioning from part-time to full-time status.

If enrollment does not occur when initially eligible, the eligible employee and any eligible family member(s) must wait until this Plan's next open enrollment period or until a qualifying event occurs to enroll.

Annual Open Enrollment

Each year the Plan Sponsor holds an annual open enrollment period during which eligible active employees may enroll or drop enrollment for themselves and their eligible family members. Coverage will begin on the following January 1.

Change in Status

If an employee is not eligible to participate in the Plan and later changes employment status and becomes eligible, this will be considered a "change in status" that allows enrollment in the Plan mid-year. If an eligible employee changes elections mid-year, the eligible employee must complete the enrollment process within 60 calendar days after the date of the event that qualifies the eligible employee to make a mid-year change. If the eligible employee declines coverage under the Plan or fail to enroll within 60 days after first becoming eligible, the eligible employee will not be able to enroll until the next annual open enrollment period. The only exception is if the eligible employee qualifies to make another mid-year benefit election change.

Rehires

If a Subscriber's employment is terminated and the employee is rehired in a benefits-eligible status, the eligible employee may make new benefit elections subject to the applicable waiting period determined by the Plan Sponsor.

Special Enrollment Following a Qualifying Event

The following events are considered qualifying events during which eligible employees and eligible family members may enroll mid-plan year.

- *Marriage or Domestic Partnership Registration.* Family members who are newly eligible due to marriage or registration of domestic partnership may enroll. Requests to enroll must be submitted to the Plan Sponsor within 60 days following the date of marriage or domestic partnership registration to enroll. Coverage begins on the first day of the month following the date of marriage or domestic partnership registration.
- *Births and Adoptions.* Newborns or newly adopted Children may enroll. Requests to enroll must be submitted to the Plan Sponsor within 60 days following the date of the birth, adoption, or placement for adoption. Coverage will begin on the date of the birth, adoption, or placement for adoption.
- *Guardianship or QMCSO.* Employees may enroll newly eligible family members due to court appointment as a legal guardian or issuance of a QMCSO. Requests to enroll must be submitted to the Plan Sponsor within 60 days following the effective date of legal guardianship or issuance of a QMCSO. Coverage begins on the first day of the month following the effective date of legal guardianship or date of the issuance of a QMCSO.
- *Loss of Other Coverage.* Employees and eligible family members may enroll mid-plan year following loss of coverage under another dental plan. Examples of reasons of loss of coverage include legal separation, divorce, dissolution of a domestic partnership, death, loss of dependent status, termination of employment, reduction in hours, the end of a maximum period of continuation coverage, or any other reason as approved by the Plan Sponsor. Requests to enroll must be submitted to the Plan Sponsor within 60 days of the loss of other dental coverage. Coverage will begin on the first day of the month following the loss of coverage.

When Coverage Ends

Coverage for Enrollees will terminate on the earliest of the following events:

- On the date of termination of this Plan by the Plan Sponsor.
- On the last day of the month following the date the Enrollee ceases to be eligible under the Plan.
- On the last day of the month the Enrollees fails to make any required contributions under the Plan.
- On the last day of the month following the date the Subscriber fails to provide required information necessary to determine an individual's status as a dependent (within the time period specified to provide such information).
- On the date the Plan Sponsor amends the Plan such that the Enrollee is no longer eligible, or terminates the Plan.
- On the last day of the month during which an Enrollee exhausts continuation rights.
- On the last day of the month following 30 days' prior written notice from the Participating Provider of good cause for termination. Good cause includes, but is not limited to, a documented inability to establish or maintain an appropriate provider-patient relationship with a Participating Provider, physical or verbal abuse towards a Participating Provider, office staff, or other patients, or non-payment of Copayments.

When coverage terminates for a Subscriber, coverage will also terminate for the Dependents of the Subscriber.

Continuation Rights

- *Federal or State Mandated Continuation Coverage.* Coverage may continue in accordance with any federally-mandated or state-mandated leave act or law.
 - *COBRA.* Under the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), as amended, certain circumstances, called qualifying events, may provide Subscribers and some Dependents the right to continue coverage for a temporary period of time. Please contact the Plan Sponsor's Human Resources Department for more information about coverage available pursuant to COBRA.
 - *USERRA.* Continuation and reinstatement rights may also be available if an Enrollee is absent from employment due to service in the uniformed services pursuant to USERRA. Please contact the Plan Sponsor's Human Resources Department for more information about coverage available pursuant to USERRA.
- *Leave of Absence.* Coverage may be continued during certain leaves of absence. Please contact the Plan Sponsor's Human Resources Department for more information about eligibility and coverage during a leave of absence.

Coordination of Benefits

If an Enrollee has dental care coverage under this Plan and another plan for dental care benefits, benefits will be coordinated. The purpose of coordination of benefits is to determine which plan will pay benefits first for the costs and which will pay second. Together, all plans combined may pay up to, but no more than, 100% of the total Allowable Expense.

For the purposes of this section, a “plan” is any of the following that provides benefits or services for dental care or treatment. Plan includes: group health insurance contracts, health maintenance organization contracts, Closed Panel Plans or other forms of group or group-type coverage (whether insured or uninsured); medical care components of group long term care contracts, such as skilled nursing care; and Medicare or any other federal governmental plan, as permitted by law; and group insurance contracts and subscriber contracts that pay or reimburse for the cost of dental care. Plan does not include: individual, hospital indemnity coverage or other fixed indemnity coverage; accident only coverage; specified disease or specified accident coverage; school accident type coverage; benefits for non-medical components of group long-term care policies; Medicare supplement policies; Medicaid policies; or coverage under other federal governmental plans, unless permitted by law.

An Allowable Expense is a dental care expense, including deductibles, coinsurance, and copayments, that is covered at least in part by any plan covering the Enrollee. When a plan provides benefits in the form of services, the Reasonable Cash Value of each service will be considered an Allowable Expense and a benefit paid. An expense that is not covered by any plan covering the person is not an Allowable Expense. If this Plan pays more than it should have paid under this coordination of benefits provision, it may recover the excess from one or more of the persons it has paid or for whom it has paid.

The Order of Benefit Determination Rules determines the order in which each plan will pay benefits. The plan that pays first is called the “Primary Plan.” The plan that pays after the Primary Plan is the “Secondary Plan.” When this Plan is primary, it determines Benefits first without considering any other plan’s coverage. When this Plan is secondary, it determines Benefits after the coverage of another plan has been first applied and may reduce the Benefits of this Plan so that the total paid by all plans does not exceed 100% of the total Allowable Expense.

Each plan determines its order of benefits using the first of the following Order of Benefit Determination Rules that apply:

1. A plan that does not contain a coordination of benefits provision similar to this one is the Primary Plan.
2. **Non-dependent or Dependent.** The plan that covers the person other than as a dependent, for example as an employee, member, subscriber, or retiree is the Primary Plan. The plan that covers the person as a dependent is the Secondary Plan. However, if the person is a Medicare beneficiary and, as a result of federal law, Medicare is secondary to the plan covering the person as a dependent; and primary to the plan covering the person as other than a dependent (e.g. a retired employee); then the order of benefits between the two plans is reversed so that the plan covering the person as an employee, member, subscriber, or retiree is the Secondary Plan and the other plan is the Primary Plan.
3. **Child Covered Under More Than One Plan.** Unless there is a court decree stating otherwise, when a Child is covered by more than one plan the order of benefits is determined as follows:
 - a. For a Child whose parents are married or are living together, whether or not they have ever been married: The plan of the parent whose birthday falls earlier in the calendar year is the Primary Plan; or if both parents have the same birthday, the plan that has covered the parent the longest is the Primary Plan.
 - b. For a Child whose parents are divorced or separated or not living together, whether or not they have ever been married:

- (i) If a court decree states that one of the parents is responsible for the Child's health care expenses or health care coverage and the plan of that parent has actual knowledge of those terms, that plan is primary. This rule applies to plan years commencing after the plan is given notice of the court decree;
 - (ii) If a court decree states that both parents are responsible for the Child's health care expenses or health care coverage, the birthday rule in subparagraph a. shall determine the order of benefits;
 - (iii) If a court decree states that the parents have joint custody without specifying that one parent has responsibility for the health care expenses or health care coverage of the Child, the birthday rule in subparagraph a. above shall determine the order of benefits; or
 - (iv) If there is no court decree allocating responsibility for the Child's health care expenses or health care coverage, the order of benefits for the Child are as follows: the plan covering the custodial parent; the plan covering the spouse or domestic partner of the custodial parent; the plan covering the non-custodial parent; and then the plan covering the spouse or domestic partner of the non-custodial parent.
- c. For a Child covered under more than one plan of individuals who are not the parents of the Child, subparagraphs a. or b. above shall determine the order of benefits as if those individuals were the parents of the Child.
 - d. For a Child who has coverage under either or both parents' plans and also has coverage as a dependent under a spouse's or domestic partner's plan, the longer or shorter length of coverage rule in paragraph 5. below applies. In the event the Child's coverage under his or her spouse's or domestic partner's plan began on the same date as the Child's coverage under either or both parents' plans, the order of benefits shall be determined by applying the birthday rule in subparagraph a. to the Child's parent and the Child's spouse or domestic partner.
4. **Active Employee or Retired or Laid Off Employee.** The plan that covers a person as an active employee, that is, an employee who is neither laid off nor retired, is the Primary Plan. The plan covering that same person as a retired or laid-off employee is the Secondary Plan. The same would hold true if a person is a dependent of an active employee and that same person is a dependent of a retired or laid-off employee. If the other plan does not have this rule, and as a result, the plans do not agree on the order of benefits, this rule is ignored. This rule does not apply if the Non-dependent or Dependent rule in paragraph 2 can determine the order of benefits.
 5. **Continuation Coverage.** If a person whose coverage is provided pursuant to COBRA or under a right of continuation provided by state or other federal law is covered under another plan, the plan covering the person as an employee, member, subscriber, or retiree or covering the person as a dependent of an employee, member, subscriber, or retiree is the Primary Plan and the COBRA or state continuation coverage, or other federal continuation coverage is the Secondary Plan. If the other plan does not have this rule, and as a result, the plans do not agree on the order of benefits, this rule is ignored. This rule does not apply if the Non-dependent or Dependent rule in paragraph 2 can determine the order of benefits.
 6. **Longer or Shorter Length of Coverage.** The plan that covered the person as an employee, member, subscriber, or retiree longer is the Primary Plan and the plan that covered the person the shorter period of time is the Secondary Plan.

If a covered person is enrolled in two or more Closed Panel Plans and if, for any reason, including the provision of service by a non-panel provider, benefits are not payable by one Closed Panel Plan, COB shall not apply between that plan and other Closed Panel Plans. Closed Panel Plan is a plan that provides dental care benefits to covered persons primarily in the form of services through a panel of providers that has contracted with or is employed by the plan, and that excludes coverage for services provided by other providers, except in cases of emergency or referral by a panel member.

Certain facts about dental care coverage and services are needed to apply these COB rules and to determine Benefits payable under this Plan and other plans. This Plan may get the facts it needs from or give them to other organizations or persons for the purpose of applying these rules and determining benefits payable under this Plan and other plans. This Plan need not tell or get the consent of the Enrollee to do this. Enrollees must provide any facts this Plan needs to apply these rules and determine benefits payable. It is the Enrollee's responsibility to notify this Plan if family members have dental care coverage under another plan.

Right to Receive and Release Needed Information.

Certain facts about dental care coverage and services are needed to apply these COB rules and to determine benefits payable under This Plan and other Plans. The Plan may get the facts it needs from or give them to other organizations or persons for the purpose of applying these rules and determining benefits payable under This Plan and other Plans covering the person claiming benefits. The Plan need not tell, or get the consent of, any person to do this. Each person claiming benefits under This Plan must give the Plan any facts it needs to apply those rules and determine benefits payable.

Facility of Payment.

If payments that should have been made under This Plan are made by another Plan, the issuer has the right, at its discretion, to remit to the other Plan the amount it determines appropriate to satisfy the intent of this provision. The amounts paid to the other Plan are considered benefits paid under This Plan. To the extent of such payments, the issuer is fully discharged from liability under This Plan.

Right of Recovery.

The issuer has the right to recover excess payment whenever it has paid Allowable Expenses in excess of the maximum amount of payment necessary to satisfy the intent of this provision. The issuer may recover excess payment from any person to whom or for whom payment was made or from any other issuers or Plans.

If an Enrollee is covered by more than one Plan, and the Enrollee does not know which is the Primary Plan, the Enrollee may contact any one of the Plans to verify which Plan is primary. The Plan the Enrollee contacts is responsible for working with the other Plan to determine which is primary and will let the Enrollee know within 30 days. Plans may have timely claim filing requirements. If the Enrollee or provider fails to submit a claim to a secondary Plan within that Plan's claim filing time limit, the Plan can deny the claim. If the Enrollee experiences delays in the processing of a claim by the Primary Plan, the Enrollee or provider will need to submit a claim to the Secondary Plan within its claim filing time limit to prevent a denial of the claim. To avoid delays in claims processing, if an Enrollee is covered by more than one Plan, the Enrollee should promptly report to providers and Plans any changes in coverage.

Subrogation

Benefits under this Plan are available for the diagnosis or treatment of an injury or disease, which is allegedly the liability of a third party. Such Benefits provided by this Plan are solely to assist the Enrollee. By providing Benefits, this Plan is not acting as a volunteer and is not waiving any right to reimbursement or subrogation.

If the Plan and Participating Provider provide Covered Services for the treatment of an injury or disease, which is possibly caused by a third party, it will:

- Be subrogated to the rights of the Enrollee to recover the Reasonable Cash Value of the Covered Services provided; and
- Have security interests in any damage recoveries to the extent of all payments made or the Reasonable Cash Value of the Covered Services provided, subject to the limitations specified below.

As a condition of receiving Covered Services, the Enrollee shall:

- Provide the Plan and Participating Provider with the name and address of the parties liable, all facts known concerning the injury, and other information as reasonably requested;
- Hold in trust any damage recoveries until the final determination or settlement is made and to execute a trust agreement guaranteeing the Plan's and Participating Provider's subrogation rights; and
- Take all necessary action to seek and obtain recovery to reimburse the Plan and Participating Provider for the Reasonable Cash Value of the Covered Services.

The Enrollee is entitled to be fully compensated for the loss. After the Enrollee has been fully compensated for the loss, the Plan and Participating Provider are entitled to the remaining proceeds of any settlement or judgment that results in a recovery from the third party or third party's insurer(s) up to the Reasonable Cash Value of the Covered Services provided.

Services payable under any motor vehicle medical, motor vehicle no-fault, underinsured or uninsured motorist, personal injury protection, homeowner's, commercial premises coverage, workers' compensation, or other similar contract or insurance are not covered.

Claim and Appeal Procedures

Claims

Claims for Benefits for services provided by a Participating Provider will be processed at the time of service. Claims for Benefits for services provided by a Non-Participating Provider will be processed within 30 days after receipt of the claim by the Plan, unless special circumstances require an extension of time for processing the claim. If an extension of time for up to 15 days for processing is required, written notice of the extension will be provided prior to the end of the initial 30-day period. If additional information from the Enrollee is necessary to decide the claim, the notice of extension shall specifically describe the required information, and the Enrollee has 45 days from receipt of the notice within which to provide the specified information.

Complaints

Enrollees are encouraged to discuss matters regarding service, care, or treatment with the Participating Provider's staff. Most complaints can be resolved with the Participating Provider's staff. Enrollees may also contact the Member Services Department with questions or complaints.

Appeals

If a claim for Benefits has been denied, either in whole or in part, the Enrollee has the right to request an Appeal. The Enrollee must submit the request for an Appeal within 180 days from the date the claim was denied. A request for an Appeal of a benefit denial may be made by submitting a written request to:

Willamette Dental of Washington, Inc.
Attn: Member Services Department
6950 NE Campus Way
Hillsboro, Oregon 97124
1-855-433-6825

Appeals of eligibility determinations or any termination of coverage should be submitted to the Plan Sponsor.

Written comments, documents, records, and other information relating to the claim for Benefits may be submitted. Upon request and free of charge, the Enrollee may have reasonable access to, and copies of, all documents, records, and other information relevant to the claim for Benefits. The review will take into account all comments, documents, records, and other information submitted by the Enrollee relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination. The review will be conducted by an individual who is neither the individual who made the Adverse Benefit Determination that is the subject of the Appeal, or a subordinate of such individual. In the event the review decision is based in whole or in part on a dental clinical judgment, a qualified dental professional, who was not consulted in connection with the initial benefit determination, will be consulted.

Notification of the determination regarding the Appeal will be provided to the Enrollee within 30 days of the Plan's request for an Appeal.

Enrollees may authorize another person to represent the Enrollee regarding a specific Appeal. The authorization must be in writing and signed by the Enrollee. The Appeal process for an Appeal submitted by a representative of the Enrollee will not commence until this authorization is received. If the written authorization is not received, the Appeal will be closed.

Dental Coverage Provisions

Participating Provider

This Plan only provides Benefits for services provided by a Participating Provider, except as described as covered below for referrals from a Participating Provider and out of area Dental Emergency treatment.

Referrals

If a Participating Provider cannot provide a covered service, the Participating Provider may refer an Enrollee to a Non-Participating Provider. Benefits for services provided by a Non-Participating Provider will be covered under this Plan only if:

- The Participating Provider refers the Enrollee;
- The services are specifically included by the Participating Provider's referral; and
- The services are listed as covered by this Plan in the Schedule of Covered Services and Copayments and are not otherwise limited or excluded.

Orthodontic Benefits

Benefits for orthodontic treatment are provided only if a Participating Provider prepares the treatment plan prior to rendering services. The treatment plan is based on an examination that must take place while the Enrollee is covered under this Plan. The examination must show a diagnosis of an abnormal occlusion that can be corrected by orthodontic treatment.

The Enrollee must remain covered under this Plan for the entire length of treatment. The Enrollee is responsible for payment of the Copayments listed in the Schedule of Covered Services and Copayments, including payment of the General Office Visit Copayment at each visit for orthodontic treatment. The pre-orthodontic Service Copayments will be deducted from the comprehensive orthodontic Service Copayment if the Enrollee accepts the treatment plan. The Copayment for limited orthodontic services may be prorated based on the treatment plan. The Enrollee must follow the post-treatment plan and keep all appointments after the Enrollee is de-banded to avoid additional Copayments.

For orthodontic treatment started prior to the effective date of coverage, Copayments may be adjusted based upon the services necessary to complete the treatment.

If Benefits for orthodontic services terminate prior to completion of orthodontic treatment, Benefits will continue through the end of the month. If coverage terminates prior to completion of treatment, the Copayment may be prorated. The services necessary to complete treatment will be based on the Reasonable Cash Value of services rendered.

Temporomandibular Joint Disorder Treatment Benefits

Temporomandibular Joint Disorder (TMJ) means a disorder that has one or more of the following characteristics: pain in the musculature associated with the temporomandibular joint; internal derangements of the temporomandibular joint; arthritic problems with the temporomandibular joint; or an abnormal range of motion or limitation of motion of the temporomandibular joint.

Benefits for treatment of TMJ are limited to a yearly benefit maximum of \$1,000 and a lifetime benefit maximum of \$5,000.

TMJ treatment is covered only if the Participating Provider prepares the treatment plan prior to starting treatment and provides the treatment. The repair or replacement of lost, stolen, or broken TMJ appliances is not covered.

To be covered, the Covered Services must be:

- Reasonable and appropriate for the treatment of TMJ;
- Effective for the control or elimination of pain, infection, disease, difficulty in speaking, or difficulty in chewing or swallowing food, which is caused by TMJ;
- Recognized as effective, in accordance with the professional standard of care;
- Not deemed Experimental or Investigational; and
- Not primarily intended to improve, alter, or enhance appearance.

Dental Implants

The dental implant services described in this Benefits Booklet are covered for Enrollees if all of the following requirements are met:

- A Participating Provider determines that dental implants are dentally appropriate for the Enrollee.
- A Participating Provider prepares the treatment plan for dental implants prior to initiating any implant treatment.
- All dental implant services are provided by a Participating Provider or under a referral from a Participating Provider.
- The Enrollee follows the treatment plan prescribed by the Participating Provider.
- The Enrollee makes payment of amounts due.
- The dental implant service is listed as covered in this Benefits Booklet and is not otherwise limited or excluded.

If the Enrollee's coverage ends before the completion of the dental implant services, the cost of any remaining treatment is the Enrollee's responsibility.

The following dental implant services are covered at 100%, up to an annual dental implant benefit maximum of \$1,500. The annual dental implant benefit maximum is the maximum dollar amount this Plan will cover for benefits for the below dental implant services in a calendar year. The dental implant Enrollee cost-share for implant services is permanent.

CDT Code and Procedure Description

D6010 Surgical placement of implant body: endosteal implant

D6011 Second stage implant surgery

The benefit for dental implants is subject to the following limitations:

- Benefits for surgical placement of a dental implant are limited to 1 implant per calendar year.
- Dental implants to replace an existing bridge or existing denture are not covered, unless 5 years have elapsed since the placement of the bridge or delivery of the denture.

The following services are not covered under this benefit for dental implants:

- Any dental implant services and related services that are not listed as covered on this Benefits Booklet.
- Bone grafting.
- Cone beam CT X-rays and tomographic surveys.
- Dental implant-supported prosthetics or abutment-supported prosthetics (crowns, bridges, and dentures).
- A dental implant that was surgically placed prior to the Enrollee's effective date of coverage under this Plan that has not received final restoration.
- Eposteal, transosteal, endodontic endosseous, or mini dental implants.
- Maintenance, repair, replacement, or completion of an existing implant started or placed by a Non-Participating Provider without a referral from a Participating Provider.

- Maintenance, repair, replacement, or completion of an existing implant started or placed prior to the effective date of coverage under this Plan.
- Treatment of a primary or transitional dentition.

Emergency Care

Participating Providers will provide Enrollees with treatment of a Dental Emergency during office hours. The Plan will provide Benefits for covered services provided by Participating Providers for treatment of a Dental Emergency. If the Participating Provider's offices are closed, the Enrollee may access after-hours telephonic clinical assistance by calling the Appointment Center at 1.855.4DENTAL (1-855-433-6825). There is no cost for accessing after-hours telephonic clinical assistance.

The Enrollee may seek treatment from a Non-Participating Provider for a Dental Emergency that occurs while traveling outside of a 50-mile radius of any Participating Provider office. The Enrollee may seek reimbursement for the cost of the covered services rendered up to \$100, less any Copayments specified in the Schedule of Covered Services and Copayments. A written request for reimbursement must be submitted within 6 months of the date of service. The written request should include the Enrollee's signature, the attending Non-Participating Provider's signature, and the attending Non-Participating Provider's itemized statement. Additional information, including X-rays and other data, may be requested to process the request. The reimbursement to the Enrollee for out of area Dental Emergency treatment will not be provided if the requested information is not received.

Extension of Benefits

Benefits for the following covered services are available after coverage ends for a limited time period and according to the conditions described below. An Enrollee terminated for good cause is not eligible for an extension of Benefits.

- *Crowns or Bridges.* Adjustments for crowns or bridges will be covered for up to 6 months after placement if the final impressions are taken prior to termination and the crown or bridge is placed within 60 days after termination.
- *Removable Prosthetic Devices.* Adjustments for removable prosthetic devices will be covered for up to 6 months after placement if final impressions are taken prior to termination and the prosthesis is delivered within 60 days after termination. Laboratory relines are not covered after termination.
- *Immediate Dentures.* The delivery of immediate dentures will be covered if final impressions are taken prior to termination and the dentures are delivered within 60 days after termination. If coverage terminates prior to the extraction of teeth, the extractions will not be covered.
- *Root Canal Therapy.* The completion of root canal therapy will be covered if the root canal is started prior to termination and treatment is completed within 60 days after termination. Pulpal debridement is not a root canal start. If the root canal requires retreatment after 60 days from termination of coverage, re-treatment will not be covered. Restorative work following root canal treatment is a separate procedure and not covered after termination.
- *Extractions.* Post-operative checks are covered for 60 days from the date of the extraction for extractions performed prior to termination. If teeth are extracted in preparation for a prosthetic device and coverage terminates prior to the final impressions, coverage for the prosthetic device will not be extended.
