

COMPANY OVERVIEW

Founded in 1970, Willamette Dental Group is the largest multi-specialty group dental practice in the Pacific Northwest, serving more than 450,000 members at nearly 50 dental practices throughout Washington, Idaho and Oregon.

A FOCUS ON PREVENTION

Our treatment philosophy is centered on proactive dental care. This means we focus on preventing disease rather than treating it surgically. We achieve this by practicing evidence-based dentistry—evaluating each patient’s individual circumstances and oral health scientifically then creating a personalized treatment plan.

TECHNOLOGY TO ADVANCE PATIENT CARE

Willamette Dental Group utilizes electronic dental records and digital radiography to create a platform for our providers to standardize clinical decisions, track diagnoses and allow us to measure and track patient outcomes.

INVESTING IN RESEARCH

At Willamette Dental Group, we use the latest cutting-edge science to make our patients healthier. We currently partner with UCSF on research studies related to caries and periodontal disease risk management and with Harvard, University of Texas and others on the implementation of a diagnostic coding system for dental diagnoses and treatment—the first of its kind.

CONVENIENT, EASY ACCESS

With nearly 50 dental practice locations across three states, Willamette Dental Group delivers quality, state-of-the-art dental care for patients.

HAPPY & HEALTHY PATIENTS

Willamette Dental is dedicated to exceeding patient expectations and we are proud to say that 9 out of 10 patients would highly recommend Willamette Dental to their family and friends as measured by our independent patient experience survey through industry leader, NRC Health.

PLAN OVERVIEW

SIMPLE BENEFITS THAT BRING VALUE

With no maximums*, no deductibles and predictable copays for all covered services, patients can plan for their care and treatments rather than being surprised by a bill based on unknown fees and percentages after the fact.
