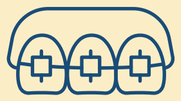
DUAL OPTION DENTAL PLAN

Four strategic reasons to add Willamette Dental

Affordability is workers' top concern for dental benefits, with nearly 25% delaying care due to high costs. Willamette removes that barrier with low copays on every service - so employees get the care they need without financial stress.

Help stabilize the PPO plan

Our plan attracts those that need the most care due to benefit structure with **no annual maximum** and **low copays** for services. Therefore improving the PPO plan's performance.



Add an orthodontia benefit

Orthodontia is covered at a copay of $2,500 or less. **No age limits.**
Don't increase the PPO rates by adding ortho coverage, just add Willamette Dental as an option.

Contribute to a comprehensive benefit package

By offering more than one dental plan, employees can choose the plan that best fits their current life stage and budget.

Increase employee participation & commission

Willamette Dental's comprehensive dental plan is attractive to groups offering voluntary benefits due to our **low out-of-pocket cost**. Increase participation and your commission too!
